

IR+M's Core ESG Strategy utilizes the firm's deep investment team experience as bottom-up security selectors along with our proprietary ESG research methodology to seek to add value over the Bloomberg Aggregate Index. The strategy emphasizes corporate, securitized, and municipal issuers that meet certain environmental, social, and governance ("ESG") standards.

The Strategy's duration profile is similar to that of the Index. We strive to enhance returns by focusing on high-quality spread product and avoiding issuers that do not align with ESG and sustainability principles. High-conviction investments in well-valued securities enable us to develop meaningful position sizes while maintaining sufficient diversification. Using a positive ESG tilt, we endeavor to construct a no-surprises portfolio that brings together IR+M's best ideas across maturities and sectors.
