IR+M INTERMEDIATE CREDIT STRATEGY
Target duration neutral to benchmark
Acquire meaningful positions in our best ideas based on fundamental analysis with an emphasis on:

- Credit: Strong fundamentals with understandable risks
- Structure: Unique features
- Price: Valuation relative to peers

Seek securities with embedded, often over-looked, value
Opportunistically trim or add to position sizes and sector allocations based on evolving credit, structure, and price characteristics

- Introduce incremental risk to portfolios when compensation is attractive
- Reduce risk when spread sectors are rich
